The Kalamazoo County Street Directory

(Includes Street Naming Policy, Procedures and Guidelines)

Kalamazoo County Department of
Planning & Community Development
201 West Kalamazoo Avenue
Kalamazoo, Michigan 49007

In cooperation with
Community Information System & Research Services
Western Michigan University

December 2014

USER GUIDE

The format of this directory is easy to understand. Starting at the left hand and moving across the top of each directory page, each field is described below:

- The "D" field indicates the direction in which the street runs (i.e., N=north).
- The "Street Name" and "Type" fields provide the street name and street type (i.e., Drake=name, Road=type).
- The address range fields, which is divided by "LO" and "HI", shows the range of house address numbers for that portion of the street.
- The "OE*" field indicates if the address range contains all house numbers, only even numbers or only odd numbers. "E" indicates even numbers only. "O" indicates odd numbers only. The asterisk ("*") indicates all numbers.
- The "Municipality" and "C/T/V" fields indicate which local unit of government the street is located within. For example, a street listed in Kalamazoo Township will be "KALAMAZOO" and "TWP." A street listed in the City of Kalamazoo will be "KALAMAZOO" and "CITY."
- The "Zip" field shows the zip code that covers that portion of the street.
- The "Tract" field shows the 2000 Census tract that covers that portion of the street.
- The "Location" field provides a description of the street to nearest major roads.

ERRORS AND OMISSIONS

The Department of Planning & Community Development is providing this directory for informational purposes only. We are not responsible for any errors or omissions. If you are using this directory and find an error or omission, please contact the Planning Department at 384-8115, so that we may make the appropriate corrections.

Through the assistance of the local units of government in Kalamazoo County and you, the user, we make every effort to ensure the street directory is up to date and accurate. Thank you for your cooperation!

STREET NAMING POLICY, PROCEDURES AND GUIDELINES

Adopted by the Kalamazoo Metropolitan County Planning Commission on November 3, 1994
And Amended on February 7, 2002

A. POLICY

1. Preface

As Kalamazoo County develops, the construction of new streets requires new street names. The naming of a street may appear minor in the issues of growth in the County. In actuality, it is an important task in maintaining efficiency and simplicity in today's highly mobile society. In order to maintain a county-wide standard for street names, the Kalamazoo Metropolitan County Planning Commission has created the following policy, procedures and guidelines.

2. Purpose

The purpose of this policy is to establish a coordinated and efficient system in the naming of all streets in Kalamazoo County. The primary objectives of the policy are as follows:

a. Confirm clear and easy to pronounce street names.

b. Eliminate potential confusion by avoiding street name duplication and close similarities.

c. Establish a simple to understand geographic orientation of street names through the consistent use of certain street name suffixes (i.e., “streets” are north and south, “avenues” are east and west, “courts” are cul-de-sacs, etc.)

3. Area of Responsibility

The Kalamazoo County Department of Planning and Community Development, on behalf of the Kalamazoo Metropolitan County Planning Commission, has been functioning as a central clearinghouse for street name approval for all public and private streets in the County for the last 30 plus years. The County provides the service in order to coordinate the issuance of new street names located in all local units of government.

Approved street names are permanently reserved in the “Kalamazoo County Street Directory” which is maintained by the Department of Planning and Community Development.

B. PROCEDURES

1. Applicants for New Streets

The following entities/persons may qualify as applicants for street name approval:

a. Any municipality in Kalamazoo County.

b. A developer (or a designated representative) constructing a public or private street in the County per local regulations.

c. A property owner who is constructing a private street per local regulations.

2. Applicants for Existing Streets

Proposed name changes to existing streets are first to be cleared by the Kalamazoo County Department of Planning and Community Development. All proposed names changes must follow local governmental and/or Kalamazoo County Road Commission procedures and require their subsequent approval.

3. Preliminary Approval

Temporary verbal approval may be granted over the telephone by contacting the Department of Planning and Community Development at 384-8112 during normal business hours. Temporary approval is only valid for 60 days.

It is suggested that at least two names for each street are submitted in the event of duplication and in an effort to expedite the approval process.

4. Application for Final Approval

A letter requesting street name approval with a map or copy of a plat should be sent to the following address:

Street Directory
Planning & Community Development
201 W. Kalamazoo Ave.
Kalamazoo, MI 49007-3777

The letter must indicate the proposed street name requested for approval. The map or copy of the plat must indicate the location of the street, including municipality, township section, plat name (if applicable), location to nearest major cross streets and any other information which will provide an accurate location of the street.

5. Final Approval or Disapproval

A letter of approval or disapproval from the Department of Planning and Community Development will be sent to the applicant. Copies of the street name approval or disapproval letter will be sent to the Clerk of the respective local unit of government (unless another designee is specified by the local unit), the Kalamazoo County Road Commission and Community Information System (CIS).

6. Municipal Review

a. All street names approved by the Department of Planning and Development are subject to review by the municipality and/or the Kalamazoo County Road Commission.

b. Any changes to a street name by a municipality or the Kalamazoo County Road Commission, after approval has been granted by the Department of Planning and Community Development, requires that the municipality or Road Commission notify the Department of the change.

C. STREET NAME REVIEW CRITERIA

1. Street Orientation

The following is a list of accepted suffix names required for the orientation of a street:

Orientation	Name
North - South	street
East - West	avenue
Cul-de-sac	circle, court, place, way
Meander and other	boulevard, crescent, drive, lane, parkway, pass, path, road, terrace, trace, trail, etc.
Service	alley

2. Spelling and Pronunciation

a. A proposed street name cannot match an existing street of the same name, regardless of spelling or slight variation.

b. Sound-a-like or similar sounding names are prohibited.

c. Complex, hard to pronounce or exotic names are to be avoided.

3. Overuse of Street Names

Proposed street names with the same first word or the same second word as an existing street (i.e., Woodbury, Woodcrest, Woodgrove, Woodhams, Woodhaven or Stonebrook, Mastenbrook, Meadowbrook, Sunnybrook, Springbrook) are prohibited if there are more than five (5) names with the same first word or same second word. If there are less than five (5) names with the same first word or same second word, the proposed street name will only be permitted when the streets are located in separate zip codes or in different local units of government in the County.

4. Name Length

The length of street names is to be restricted to eleven (11) letters due to the standard size of street signs.

5. Numbers

No new street name shall use any number (either lettered or numerically) as a prefix name, core name or suffix name.

6. Directional Words

No new street name shall use any directional word (north, south, east, west) as a prefix name, core name or suffix name. Directional words may only be used if necessary to distinguish bearing in accordance with the County street naming convention.

7. Stub Streets

All proposed stub streets must have a designated street name.

D. GUIDELINES

These guidelines have been provided for the purpose of assisting in the selection of street names. These guidelines are not requirements for street name approval, however the guidelines are highly recommended. The guidelines may even apply for the naming of subdivisions or similar developments.

1. Previous Use. A street name may refer to the history or previous use of a site or particular area (i.e., farm, school, institution, etc.)

2. Michigan Living. The use of names native to Michigan creates an identity for a street or subdivision that characterizes Michigan living. The names also mature better with time than trendy or exotic names. These names may include names of Michigan wildflowers, historical figures, lighthouses, rivers, counties, etc.

3. Themes. The use of a theme is very effective in establishing identity for a subdivision. Airports and famous composers are themes used in two existing

subdivisions in Kalamazoo County. The use of an atlas, encyclopedia, directory or out-of-state telephone book provides a wide array of potential street names.

4. Avoid Overused Names. Common nature names, such as “Meadowbrook” or “Oakridge”, are overused and should be avoided. Look for a name that relates to a special natural feature of the site such as a stand of trees, open prairie, or a marsh or stream. Unique nature names which stick to a theme work well. For example, a development containing open grassland may be named after various prairie grasses or after the native birds, which live in the grassland. ■
