

# Mission, Vision & Values

## **Mission:**

To improve health for all residents of Kalamazoo County.

## **Vision:**

A community where equity in social, mental, physical and environmental health is achieved for all County residents.

## **Values:**

### Equity

*We will promote social justice and work to reduce inequities that affect the health and wellbeing of our community.*

### Leadership

*We will support and lead collaborations that promote improved public health outcomes with local, regional and state partners as well as County residents.*

### Professionalism

*We will maintain highly trained and knowledgeable staff who will contribute specialized knowledge to the community.*

### Quality

*We will strive to achieve the highest quality standards for public health and community services by continually working to improve our programs and services.*

### Respect

*We will embrace the diverse and unique talents and lives of individuals in our community and ensure we operate programs and services in a manner that values human dignity.*
