for more information.**

Kalamazoo County Health & Community Services (KCHCS) participates in the Federal “Vaccines For Children” program, which provides vaccines to children who have Medicaid, no insurance, or no insurance coverage for vaccines, or are Native Alaskan or Native American Indian. Please call your insurance provider to find out if you have any immunization coverage. We are able to bill some insurances for immunizations. We have a private supply of all childhood vaccines available for those who have private insurance that we bill. If we cannot bill your insurance you will need to pay market price for the private vaccine. Prices for these vaccines vary. Please call 373-5264 or 373-5239 for more information.

No appointment is needed.

Important! Bring in your child’s immunization record.

The Health & Community Services programs are open to all without regard to race, color, national origin, sex or disability.
