

## Parking

The parking lanes on the east and west sides of N Rose Street will be unavailable for 8 weeks.

## Road Closures

The map below indicates the project area. The projected schedule is as follows:

1. The intersection of N Rose Street and Eleanor Street will be closed for an estimated 2 weeks.
2. N Rose Street from Kalamazoo Ave to Eleanor Street will be closed for an estimated 8 weeks.
3. Southbound traffic will be diverted through Kalamazoo Ave to Westnage.
4. Northbound traffic will be diverted through Water Street to N Edwards.
5. Sidewalks will remain passable for the majority of the project

## The Plan:

We're extending and rehabilitating our infrastructure to provide service along N Rose Street in downtown Kalamazoo, improving your electric reliability and allowing us to better serve your energy needs. The project will be completed in two parts:

**Part One:** Replacing underground conduit beginning Sept. 10, 2019. Duration: 10 weeks

**Part Two:** Installing upgraded electric cable in the underground conduit beginning 2019 or early 2020.

## Outage Communication

Any required service outages to this area will be communicated in advance and will be scheduled to minimize the inconvenience to your business. For timely outage information, consider signing up for text alerts at [ConsumersEnergy.com/alerts](https://www.consumersenergy.com/alerts)
