Period Covered: March–May, 2019

## New Families

### New Families Housed

**10 new families** were housed in Q3 bringing the total in LHAf supported housing in the month of May to 87.

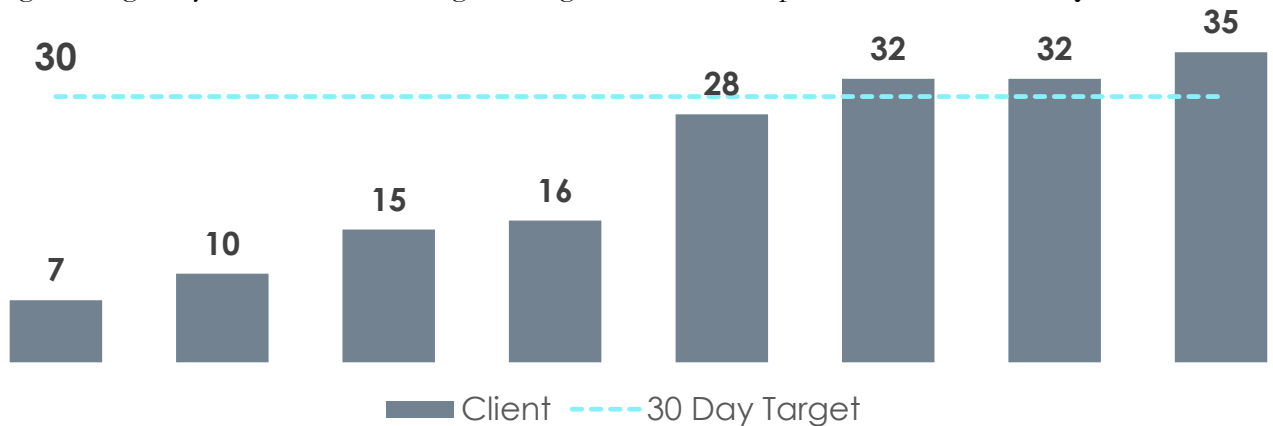

## Process Information

On average, among families housed in Q3, it was approximately 131 days between when a coordinated screening was completed and a family was housed.

Among families housed in Q3 that had been added to the in-process list (n=8), 63% of them were added to the list within 30 days of their coordinated screening. The average time between a coordinated screening and eligibility verification resulting in being added to the in-process list was 21.9 days.

**An additional 2 families** were housed in Q3 but did not have data available to determine when they had been added to the in-process list.

Period Covered: March–May 2019

## Home Visits

The goal is for each client to meet twice per month with their assigned housing specialist. This can be quite challenging as shown by the data presented below. Notes are taken by housing specialists for nearly each client and a review shows that the majority of visits that don't happen are a result of a client being difficult to contact.

### Home Visits by Month

### Referral Sources for Housed and In-Process Clients

The majority of referrals for clients who were supported by LHAF funds in Q3 were through HRI. Half of the clients added to the in-process list were from area school districts suggesting a relationship may be starting to form.
