

BC3NP GUIDELINES FOR ELIGIBLE PATIENTS!

Are you providing Breast & Cervical Screening to patients with Insurance?

- Is their coverage limited to screening services only? CALL BC3NP
- Does your patient need diagnostic follow-up? CALL BC3NP
- No coverage/high deductible for breast/cervical diagnostics? CALL BC3NP

**Call B-C-3-N-P
1-888-243-4087 or 269-373-5213**

BC3NP serves un/under insured women with income up to 250% of the poverty level. Caseload is currently available for:

Women age 40-64 for Breast screening/diagnostic services

Women age 21-64 for Cervical screening/diagnostic services

Women age 25-39 for Breast diagnostic services

BC3NP Covers the following services for eligible women:

(Medicare based rates are paid to contracted providers)

Breast & Cervical Screening exams:

Office visit: clinical breast exam, pelvic exam, with or without Pap test
Screening Pap test
Screening Mammogram

Breast Diagnostics:

Diagnostic or follow-up mammogram views
Breast ultrasound
Surgeon consultation for breast cancer abnormalities
Breast biopsy or fine needle aspiration
MRI (must meet risk factors)

Cervical Diagnostics:

Gynecology consultation for cervical abnormalities
Colposcopy
Cervical biopsy
Endocervical Curretage

Applications to Medicaid are available to BC3NP-eligible women with new breast or cervical cancer diagnoses, if prior to treatment.

Contact the BC3NP Local Coordinating Agency #15 to arrange for enrollment and confirm an available caseload slot for your patient.
