Kalamazoo, MI – Please find the following statement from the Kalamazoo County Health & Community Services Department regarding two deaths attributed to COVID-19:

Kalamazoo County Health & Community Services Department (HCS) received notification of two deaths in Kalamazoo County attributed to COVID-19. Both individuals were older adults with underlying medical conditions. This brings the total number of deaths to three.

HCS continues to work with all of our community partners as we address the challenges facing our community due to the COVID-19 pandemic. Community mitigation and prevention measures are already in place due to Governor Whitmer's Executive Order "Stay Home, Stay Safe". HCS urges residents to comply with the executive order to help stop the spread within our community. Everyone should take the recommended precautions seriously and practice prevention, such as staying home and washing hands.
