## **April 23, 2019: Weekly Update on Kalamazoo County Water Quality**

KALAMAZOO, MI — A weekly news release will be sent on Thursdays at 4:00 p.m. with the latest information surrounding all water quality related activities occurring within Kalamazoo County. Residents can also follow [www.facebook.com/KalamazooCountyHCS/](https://www.facebook.com/KalamazooCountyHCS/) or visit [www.kalcounty.com/hcs/pfasresponse.php](http://www.kalcounty.com/hcs/pfasresponse.php).

### **Parchment/Cooper Township:**

On April 25, 2019, Senator Sean McCann will hold a Town Hall meeting at Parchment High School. This community meeting will focus on ongoing response from state and local officials to PFAS in Michigan. Representatives from the Michigan PFAS Action Response Team (MPART), the Michigan Department of Environment, Great Lakes, and Energy (EGLE formerly MDEQ) and MDHHS will present information about the statewide response to PFAS and provide a status update on PFAS contamination in Kalamazoo County. The meeting will be open to the public to ask questions on the topic. The presentations can be found at [www.kalcounty.com/hcs/pfasresponse.php](http://www.kalcounty.com/hcs/pfasresponse.php) following the meeting.

The Michigan Department of Environment, Great Lakes, and Energy (EGLE) continues to oversee the Hydrogeologic Investigation being done by Georgia Pacific and Tetra Tech into PFAS contamination of groundwater. EGLE and Tetra Tech have completed the Phase II monitoring well installation and sampling activities. Results have started to come in and are included in the attached maps and data table. Additional results are still pending and should be received within the next 2 weeks. Additional surface water sampling is also planned now that ice is off the lagoons. Once all of the data is received Georgia-Pacific will be preparing and submitting a report to the EGLE summarizing the finding thus far of the Hydrogeologic Investigation activities. At that time the EGLE and Georgia-Pacific will meet to discuss potential data gaps and the proposed future investigation activities. Attached are maps showing the study area, monitoring well locations and results from the residential well, Phase I and Phase II well sampling.

Kalamazoo County has created a listserv that will be used to disseminate PFAS updates, newsletters and routine communications to you instantly via email. If you would like to subscribe to this listserv please go to: <http://www.kalcounty.com/hcs/groundwater-listserv.htm>

**Monitoring Wells**

Dec 2018 - Jan 2019 Sample Result - PFOA plus PFOS

- ND at the RL (2 ng/L)
- February 2019 Laboratory Results Pending

1. RL = Laboratory Reporting Limit
2. ng/L = nanograms per Liter
3. PFOA = Perfluorooctanoic Acid
4. PFOS = Perfluorooctane Sulfonic Acid
5. Samples were collected by Tetra Tech in December 2018.
6. 70 ng/L for PFOA plus PFOS is the Michigan Department of Environmental Quality Drinking Water Criteria per Part 201, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, and the Part 201 Administrative Rules. Table 1 (June 25, 2018).

MW1806C	155	12/13/2018	ND
MW1807A	104	12/12/2018	ND
MW1808A	80	12/12/2018	8.51
MW1809A	32	1/8/2019	3432.9
MW1809C	86	1/9/2019	ND
MW1810A	20	1/8/2019	35.40
MW1810B	68	1/8/2019	ND
MW1810C	82	1/8/2019	ND

1. ND = Not Detected at or above the Laboratory Reporting Limit
2. ng/L = nanograms per Liter
3. PFOA = Perfluorooctanoic Acid
4. PFOS = Perfluorooctane Sulfonic Acid
5. 70 ng/L for PFOA plus PFOS is the Michigan Department of Environmental Quality Drinking Water Criteria per Part 201, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, and the Part 201 Administrative Rules. Table 1 (June 25, 2018).

**Parchment/Cooper Township Continued:**

Additionally, regarding lead testing, residents can call the City of Parchment at 269-349-3785 or the City of Kalamazoo at 269-337-8550 to have their water tested for lead and to receive a lead filter. For questions about installing the lead filter, residents should call 269-337-8550.

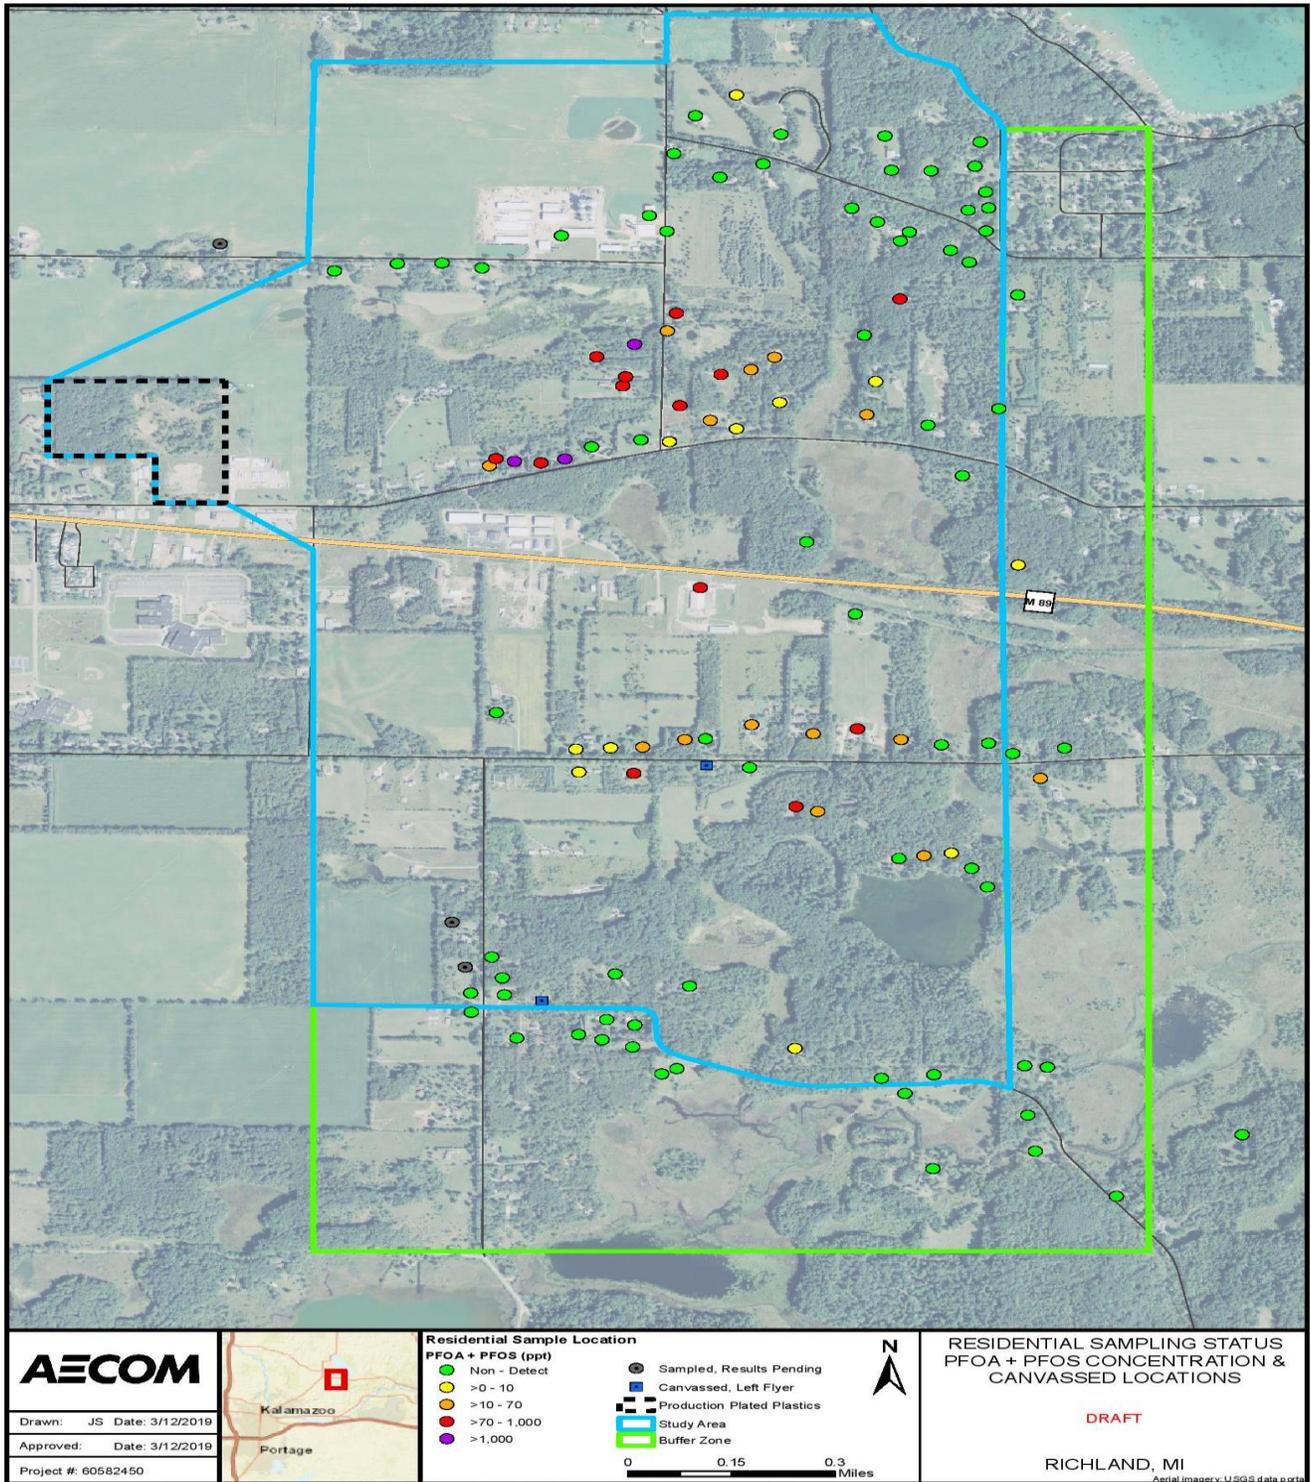

**Richland:**

On April 25, 2019, Senator Sean McCann will hold a Town Hall meeting at Parchment High School. This community meeting will focus on ongoing response from state and local officials to PFAS in Michigan. Representatives from the Michigan PFAS Action Response Team (MPART), the Michigan Department of Environment, Great Lakes, and Energy (EGLE formerly MDEQ) and MDHHS will present information about the statewide response to PFAS and provide a status update on PFAS contamination in Kalamazoo County. The meeting will be open to the public to ask questions on the topic. The presentations can be found at [www.kalcounty.com/hcs/pfasresponse.php](http://www.kalcounty.com/hcs/pfasresponse.php) following the meeting.

The Michigan Department of Environment, Great Lakes, and Energy (EGLE) continues to sample the recently installed monitoring wells in the study area. EGLE has started to receive results back from the monitoring well sampling. Additional monitoring well sampling is planned for the next 2 weeks. Once all of the monitoring well results are received the EGLE will begin developing additional maps, cross sections and conceptual site models to better understand the contamination and develop a strategy for additional investigation activities. Residential well sampling in the expanded study area has also been completed. EGLE collected 33 residential well samples in this area and have received all of the results back. Preliminary review of the results looks very positive as none of the samples exceeded the 70 ppt health advisory value. 30 out of the 33 residential samples were non-detect. Michigan Department of Health and Human Services (MDHHS) and Kalamazoo County Health & Community Services Department provided notification to these residents of the sampling, and out of an abundance of caution, all residents in the expanded residential water well program area and buffer zone have been offered PFAS filters. Proposed surface water sampling and irrigation well sampling activities are planned for late Spring/early summer of 2019. Attached is a map showing the study area, monitoring well locations and results from the residential and monitoring well sampling.

Kalamazoo County has created a listserv that will be used to disseminate PFAS updates, newsletters and routine communications to you instantly via email. If you would like to subscribe to this listserv please go to: <http://www.kalcounty.com/hcs/groundwater-listserv.htm>

You will then be asked for your name and e-mail address. After submitting these you will be subscribed to the listserv. The email addresses on the listserv are used for county purposes only and are not distributed to any third parties.
