In the Pursuit of Extraordinary Governance...

## January 2019 NEWS: KALAMAZOO COUNTY GIS ONLINE MAPPING IS CHANGING!

The Planning & Development Department in Kalamazoo County is in the process of retiring its current GIS mapping website and replacing it with an ArcGIS On-line mapping application. Compared to the old website, there are some differences in how the new website functions, and how you access the data, maps and reports. Until the end of January, both the old and new websites are available. The links to the mapping websites are available at:

<http://www.kalcounty.com/planning/gis.htm>

As you familiarize yourself with the new mapping website, please feel free to contact us if you need assistance in navigating the site!
